

Type m-seal EMC (EMV)

Product information

With the m-seal EMC (EMV) cable fittings, simple radial and axial movement of the cable are possible, even at contact location. The contact finger surfaces with rounded edges prevent damage to the conductor. In addition, the large surface on the contact finger makes low contact resistance possible, even on loosely woven cables (the contact area does not press into the conductor).

The m-seal EMC (EMV) cable fitting features the following advantages:

- Large seal and clamping area
- With integrated strain relief
- High protection class IP 68
- High contract rating, even at vibration conditions
- Very simple and rapid assembly without tools
- Suitable for the highest requirements of today's technology
- Very good shielding attenuation

Color: Silver

UV: 1

Information, conformities and approvals

Article	Order No.	Connecting thread	Clamping range (LW) mm	Contact diameter mm	EH mm	GL mm	SW 1 / 2 mm	PU pcs.

Type m-seal EMC (EMV)

Material properties

Brass nickel-plated Neo-
prene (CR)

Thermal properties

Temperature / temperature range -40 °C – 100 °C
short term short term: 150 °C

Fire properties

Fire classification acc. to
UL94: V2 self-extinguishing

Conformity

RoHS (EC Directive
2011/65/EU)

Protection class

Protection class IP68

Technical information

Halogen-free

Approvals and operating permits

cULus approval

cURus approval

VDE approval

UL Type 4x

General technical data

Strain relief according to
DIN EN 50262
